Preparation of a perfect seedbed is the key to improving your field’s chances of increasing yields. A firm, level seedbed allows for better seed-to-soil contact, which results in faster germination and uniform emergence. Proper seedbed preparation helps warm up soil for earlier planting and a longer growing season. For maximum efficiency and versatility, The Landoll Finisholl is made to pull easy, maintain uniform working depth, and allow for smooth and even residue flow in the toughest field conditions.

The Finisholl provides excellent shank spacing. No shank is closer than 28” to another shank. The shanks are not grouped together (pocketing), which can cause plugging. The Finisholl is designed to handle the high residue of today’s farming.
Narrow Transport Width
The Model 850 has one of the narrowest transport widths in the industry. Another factor in The Landoll commitment to user safety.

Rockflex Straight Coulter Gang or Rockflex Disc Gangs
Rockflex disc gangs are set at 8° angles. Combined with special 20" shallow blades on 7½" spacings, it allows for assertive cutting action and elimination of ridging.

Standard Outrigger Gauge Wheels
For rolling or hilly terrain and other difficult conditions, standard wing gauge wheels eliminate ridging and gouging. Wide 20.5" x 8-10 tires give more than adequate flotation.

Landoll Offers a Choice of Finishing Attachments

3 Bar Chain with Single Rolling Basket
(Available 3 Bar Coil with Single Rolling Basket)

3 Bar Coil Tine Harrow with ¾" x 18" Coil Tines with Simple Angle Adjustability

4 Bar Coil Tine Harrow with ¾" x 18" Coil Tines with Simple Angle Adjustability

5 Bar Chain Spike Tooth Harrow
Standard Specifications

Frame:
- 6" x 2" Exterior Frame
- 4" x 3" Interior Frame

Shanks:
- Choice of C-Flex or Spring Clamp Shank Assemblies with Edge Bent Shank
- 10" Sweeps
- True 8" Shank Spacing
- 25.5" Underframe Clearance

Disc Gangs:
- Choice of 20" Shallow Concavity Disc Blades with 8° Cut Angle or 20" Straight Coulter Gangs with Rock-Flex Protection
- 7½" Disc or Coulter Spacing

Hitch:
- T-Type Hitch with Level Lift Linkage

Axles:
- Mainframes:
  - Single Gauge Wheels – Rigid Models
  - Walking Tandems – Folding Models

Optional Equipment

- Hydraulic Disc or Coulter Gang Adjustment
- Walking Tandems on 850-11 and 850-14 Rigid Models

- Rear Tank Hitch Attachment
- 3-Bar Coil Tine Harrow
- 4-Bar Coil Tine Harrow
- 5-Bar Spike Tooth Harrow
- 3-Bar Coil Tine with Single Rolling Basket
- 3-Bar Spike Tooth with Single Rolling Basket
